

Dear Dr/ Practice manager

The Health White Paper , Equity and excellence; Liberating the NHS is the most ambitious shake up of the NHS since its inception .Over the last 20 years six times changes have been made by the Tory /Labour, now the G.Ps have been given one of the greatest challenging task to develop clinical commissioning consortium to deliver the Health Care

- What are the new challenges ahead?
- How do you form and organise a clinical consortium ?
- What are the consortium legal responsibilities ?
- How to develop a strategic planning?
- How to manage the Transition/ Procurement and Accountability

Medicos meeting will focus on these issues. Please come and participate in a healthy discussion

Dr .S. M. .Qureshi M.B.E
